

SOLAR

Solar blankets extend the swimming pool season by enabling pools to open earlier in the spring and remain open later in the fall. Insulation, thermal cells transfer the sun's warmth to the water, potentially raising the pool's temperature as much as 15°F. Along with heat retention, solar blankets also help reduce water evaporation from the pool. Created with a UV-protected polymer, Blue Wave's solar blankets are extremely durable and resistant to the deterioration caused by chemicals and UV radiation.

WINTER

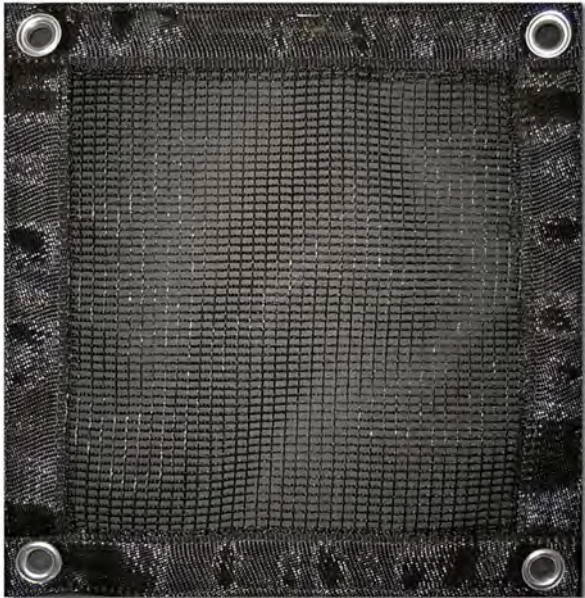

Closing your pool properly minimizes the risk of contamination, stains, and freeze damage. Proper gear and preparation can ensure an easier pool opening in the spring. Blue Wave's Arctic Armor™ cover brand is a trusted and dependable name in the industry that provides an extensive line of leaf nets, rugged mesh, winter covers, and winter cover accessories.

Featured in Image:
10-Year Solid In-Ground Winter Cover

4-YEAR LEAF NET

Install an Arctic Armor™ leaf net for easy removal of leaves and debris this fall. This durable, lightweight mesh netting is designed to rest on top of your winter cover until the leaves have finished falling and before the first heavy snowfall. Removing the net with the collected leaves and debris before winter protects your filtration system from clogging and ensures a quick cleanup in the spring. Simply clean off the leaves, dry the netting, and store it in a cool, dry place until next fall.

KEY FEATURES

- Above-ground covers feature grommets every 2-ft and include a heavy-duty cable and winch tightener
- In-ground covers include loops for water tubes every 4-ft (water tubes sold separately)

8-YEAR RUGGED MESH POOL COVERS

Spring clean-up is effortless with the Arctic Armor™ rugged mesh pool cover. This innovative cover keeps leaves, sticks, and other debris out of your pool while allowing rainwater and melting snow to drain through the fine mesh. Made from durable, lightweight polyethylene, this cover is easy to remove and store. Double-stitched hems are triple reinforced for added strength, while the cover's black underside helps ensure a clean pool in the spring.

KEY FEATURES

- Above-ground covers feature grommets every 2-ft and include a heavy-duty cable and winch tightener
- In-ground covers include loops for water tubes every 4-ft (water tubes sold separately)
