Star Barn Manual

1

Once your site is ready you may begin construction of your floor by laying out your 4x4 runners as shown. 8' wide building includes (2) runners set in 12" from corner. 10' and 12' wide buildings include (5) runners.

2

Now place 2x4's, 16" on center, on top of 4x4's place 2 1/2" screws in each of the 4 corners. Measure from corner to corner to make sure it is square. Now you can fasten each 2x4 to the 4x4's with 2 1/2" screws.

3

Next set sheathing in place and make sure the sheathing is flush on both sides. Secure in place, fasten with 1 1/4" screws every 8".

4

Locate the first wall panel, then set in place. Make sure wall is flush with the outside edge of floor structure. Apply pressure from the outside pushing in and fasten with 2 1/2" screws.

5

Position next wall in place as shown.

6

Secure with 2 1/2" screws.

Star Barn Manual

7

Continue with walls....

8

Insert 2 1/2" screws as shown to tie walls together.

9

Continue with walls as shown...

10

Secure with 2 1/2" screws.

11

Follow wall sheet layout.

12

Next install small end wall as shown and fasten with 2 1/2" screws.

Star Barn Manual

13

Secure top with 1 1/4" screws.

14

Continue with 1 1/4" screws every 8" on center.

15

Make sure all walls are flush on the inside before fastening.

16

Next install small wall in double door wall section.

17

Door panel will attach just as shown.

18

Fasten wall with 2 1/2" screws.

Star Barn Manual

19

Make sure walls are flush as shown and fasten with 2 1/2" screws.

20

Next Install small wall as shown.

21

On inside of the doors, you will find a 2x4 brace. Remove the brace and set aside, you will use this again to help brace.

22

On bottom inside of door, apply pressure on the door, tap on top of barrel bolt. Drill 5/16" hole for the barrel bolt.

23

Locate 3" LP Smartside siding.

24

Next install as shown and secure with 1 1/4" screws.

Star Barn Manual

25

Next fasten the latch with 1 1/4" black headed screws.

26

Install D part of latch on the inside.

27

You are ready for your trusses. Using your angle make sure the trusses are square.

28

Now take your Truss Gusset, set in place and fasten with 8 of the 1 1/4" black headed screws. Repeat on the reverse side.

29

Next install 2x12 Top Plates. Measure 4" from the outside of the wall to the end of the Top Plate.

30

Make sure the Top Plate is flush with inside of wall. Fasten with 2 1/2" screws.

Star Barn Manual

31

Continue with Top Plates

32

Next install Gable Dormer.

33

Secure with 2 1/2" screws.

34

After Gable Dormer is installed. Finish installing 2x12 Top Plates.

35

Now install 2x12 Top Plate on top of Gable. Secure with 2 1/2" screws.

36

Install Top Plates on backside as shown.

Star Barn Manual

37

Fasten with 2 1/2" screws.

38

Continue with Top Plates

39

Locate Gable Truss panels

40

Placing the 2 gable sections together (as shown above) Make sure it is square.

41

Use 2 1/2" screws to secure gables together.

42

Make sure the bottom is flush and secure with 2 1/2" screws.

Star Barn Manual

43

Now locate your vent frame.

44

Lay vent in place, make sure the star is covered.

45

Secure with 2 1/2" screws on all corners.

46

Next install 2x8 Top Plates

47

Make sure the Top Plate is flush on top of Gable as shown. Secure with 2 1/2" screws coming from inside out.

48

Repeat from last picture on the other end.

Star Barn Manual

49

Use angle square to make sure peaks meet as shown. Secure with 2 1/2" screws.

50

Next install Gable

51

Make sure plates are flush on the outside, secure with 2 1/2" screws.

52

Now install rafter with Gusset on one side. Install beside the front dormer as shown.

53

Fasten from underneath 2x12 into 2x4

54

Install 2x6 Ridge Pole as shown after the 2 rafters are set.

Star Barn Manual

55

Use angle square, keep 2x6 flush with rafter on bottom edge.

56

Next install T-bar

57

Make sure T-bar is flush on top of Ridge Pole, fasten with 2 1/2" screws.

58

Fasten T-bar to Gable with 2 1/2" screws as shown.

59

Continue with trusses.

60

You will have 3 rafters that are 3/4" shorter than the rest. Install them in Ridge Pole area.

Star Barn Manual

61

Locate sheathing layout.

62

Install first piece of sheathing as shown and secure with 1 1/4" screws.

63

Make sure sheathing reveals are the same on the bottom.

64

Continue with sheathing.

65

Install next piece and secure with 1 1/4" screws.

66

Next fasten bottom corner with 1 1/4" screw as shown.

Star Barn Manual

67

Make sure rafters are in place before fastening. Secure 1 1/4" screws every 8" on center.

68

Continue with sheathing.

69

Back side sheathing is complete.

70

Install front side as shown. Lay the sheathing per diagram.

71

Continue from last picture.

72

Follow sheathing diagram.

Star Barn Manual

73

Install last row as shown.

74

Fasten with 1 1/4" screw 8" on center.

75

continue with roof sheathing.

76

Next install dormer sheathing

77

Now you will start on the other end and work your way to the middle.

78

continue with roof sheathing

Star Barn Manual

79

Repeat from left side of dormer Gable.

80

Continue with sheathing.

81

Fasten with 1 1/4" screws 8" on center.

82

Sheathing is now final on roof.

83

Locate V-channel

84

Push V-channel up where Valley comes together. One guy pushes up, while another guy goes on the roof and fasten it with 2 1/2" screws coming from the outside in.

Star Barn Manual

85

Secure V-channel with 2 1/2" screws going into sheathing thru V-channel.

86

Continue with 2 1/2" screws into V-channel.

87

Next locate the corner boxes.

88

Install corner boxes as shown.

89

Secure with 1 1/4" screw into 2x8.

90

Secure with 2 1/2" screws on an angle as shown.

Star Barn Manual

91

Next locate rake trim.

92

Fasten with 1 1/4" screws.

93

Continue to fasten rake trim as shown.

94

Next install trim on the backside and secure with 1 1/4" screws.

95

Continue with trim.

96

Install trim on front side.

Star Barn Manual

97

Install front gable trim.

98

Continue with trim on the left side of the dormer.

99

Install trim on right side of Gable.

100

Next install drip edge. Secure with 1 1/4" screw every 12" to 14".

101

Continue with drip edge up the side.

102

Use tin snips to cut drip edge at peak.

Star Barn Manual

103

After drip edge is cut break drip edge at the peak to run down the other side.

104

Cut drip edge to length.

105

Measure 11 3/4" from the outside of the drip edge.

106

Snap Chalk line.

107

This is a guide line so you know where to place the shingle starter.

108

Next install shingle and secure with 3/4" roofing nails which is included in the kit.

Star Barn Manual

109

Continue shingling as shown.

110

Once you get to the other end cut shingles with a square for a nice edge.

111

Continue with cutting.

112

Install shingles on front left of dormer as shown.

113

Install shingles in a staggered fashion as shown.

114

Continue with shingling

Star Barn Manual

115

Continue with shingles on the right side of the dormer and in a staggered fashion as shown.

116

Next install ridge caps.

117

Make sure cap is centered at peak before fastening.

118

Next locate bases for Cupola.

119

Make sure Top is flush and secure as shown.

120

Next fasten inside corners with 2 1/2" screw. All 4 corners need to be secure.

Star Barn Manual

121

Use 1 1/4" screws as shown.

122

Next lift base as shown.

123

Take the base to the Top of the roof. Shingles will be on before you install the base.

124

This base will be built to set on top of shingles.

125

Secure with 2 1/2" screws as shown make sure base sets level on roof.

126

Fasten inside corner with 2 1/2" screws.

Star Barn Manual

127

Next install cupola walls.

128

Set them per diagram and secure with 2 1/2" screws.

129

Secure with 1 1/4" screw on the outside corner.

130

Continue with walls.

131

Make sure all 3 walls are fastened.

132

Last install panel without vent.

Star Barn Manual

133

Secure all corners with 2 1/2" screws.

134

Next locate cupola top.

135

Install drip edge.

136

Next install starters and fasten with 1 1/4" screws.

137

Install shingles and fasten with 3/4" shingle nails.

138

Cut shingles per diagram.

139

Shingles should look like this.

140

Continue with shingles and cut along ridge as shown.

141

Continue to Top.

142

Once all 4 sides are at top, install flashing before installing last row.

143

Install flashing as shown.

144

Now install last row of shingles.

145

Once last row is complete move to the next picture.

146

Measure cap. If cap measure 12" you measure 6" from ridge and snap chalk line.

147

Install caps starting on the bottom. Use chalk line for guidance.

148

Cut shingle where it overhangs the roof as shown.

149

Make sure all 4 corners are started before you lift it on top of Cupola. Finish ridge vents, after roof is installed.

150

Lift roof as shown. It will take 4 men to lift it onto the roof.

Star Barn Manual

151

Roof is on top of the Cupola.

152

Make sure the roof is divided up on all 4 sides.

153

Cupola will be installed after roof is shingled.

154

Install Cupola trim as shown and secure with 1 1/4" screws.

155

Continue with corner trim. Secure with 1 1/4" screws.

156

Install trim on all corners.

157

Vent installation...

158

Manuver vent into Cupola

159

then pull vent outward towards yourself.

160

Insert 1 1/4" screws on each side.

161

Run a bead of chaulking on all places where water can get to.

162

Continue with chaulking.

Star Barn Manual

163

Next locate all trim boards.

164

Install trim board as shown and fasten with 2 1/2" screws into studs.

165

Continue to install trim board.

166

Next locate star for vent trim.

167

Install star on the outside of vent as shown, secure with 1 1/4" screws.

168

Put a bead of chaulking on the area where water can get behind.

Star Barn Manual

169

Continue with chaulking.

170

Now install small trim on top of wider trim as shown, Secure with 2 1/2" screws.

171

Continue installing trim as shown, secure with 2 1/2" screws.

172

Next locate trim for the corners.

173

Fasten with 2 1/2" screws.

174

Locate all decorative trim.

Star Barn Manual

175

Install as shown.

176

Secure with 2 1/2" screw as shown on top.

177

Secure with 2 1/2" screws as shown on the bottom.

178

You will find these special for the peak only.

179

Continue fastening as shown before with 2 1/2" screws.

180

Decorative trim on Gable sides are cut at an angle.

181

Continue with trim.

182

Now install wide trim board on backside as shown, Secure with 2 1/2" screws into 2x4 studs.

183

Next install narrow piece of trim as shown and secure with 2 1/2" screws into 2x4 studs.

184

Next install decorative trim and secure as shown before with 2 1/2" screws.

185

Continue with decorative trim.

186

Make sure to use square as shown before fastening.

Star Barn Manual

187

Install wide trim on front, secure with 2 1/2" screws into 2x4 studs.

188

Continue with trim on front.

189

Make sure ends will fit .

190

Next install narrow trim on top of wide trim, secure with 2 1/2" screws.

191

Continue with trim.

192

Next install decorative trim.

193

Continue with decorative trim.

194

This is showing to install trim on cupola.

195

Locate window trim.

196

Divide trim from top to bottom.

197

Secure with 1 1/4" screws.

198

Next install top piece which is cut on an angle on both ends.

Star Barn Manual

199

Bottom piece is cut the same as the top.

200

Locate all 4 outside corners.

201

Secure with 1 1/4" screws.

202

Last of all before you get off the roof, install the trim under the overhang.

203

204

Your finished product!
